U. S. FLIER IS BROUGHT DOWN BY THREE FOES

Paris, December 14.—Lieutenant Benjamin Walcott, son of Charles D. Walcott, secretary of the Smithsonian Institution, Washington, D. C., fell in his first air fight Tuesday and it is feared was killed, according to word received here today from the front. Young Walcott, who is an American aviator, successfully brought down his adversary. While he was streaking it back to the line, however, three German machines attacked him from the rear.

His machine was seen to fall.

Permission was granted the United Press today also to announce that Lieutenant Harold Wright of the American Aviation Service on Thanksgiving Day destroyed a German "sausage balloon."

He swooped down 5000 feet, firing a stream of bullets at the balloon and utterly disregarding a blaze of fire from German antiaircraft guns. One of his shots exploded the gas in the German bag and he returned safely.

IN AVIATION SERVICE

The Georgetown (Ohio) News-Democrat has the following item concerning Mr. Kline Dillman, formerly linotype operator, on the Public Ledger:

Kline Dillman of Bethel, Ohio, who enlisted in the government service at Petersburg, Fla., has been assigned to the aviation field at Key West, Fla., where he will commence active training.

BIG DRIVE

To Secure Members For Red Cross to Begin Here Next Week—Mason County Asked For 4,000 Members.

The executive committee of Mason county's drive for 1918 Red Cross memberships has almost completed the organization plans.

Mason county has been asked for 4,000 memberships, which means no small task with everybody working, so the citizens are urged to assist the workers in every way possible in order that we may turn in our full share of memberships for this organization.

No better way could we exemplify the Christmas spirit than to assist such an organization as the Red Cross carry on their noble work by subscribing for a membership.

The national Red Cross organization requests that every member of your family subscribe for a membership. While we understand that many of the 1917 memberships have not expired, it is the desire of the executive committee that as many as feel inclined will subscribe for a new membership for 1918 memberships.

The committee urges every merchant to dress the windows and stores in Red Cross attire. We feel sure that every person in Mason county will do all in their power to help us again "go over the top." Let us see a number of memberships registered in every home.

Let's make every home an "All-American Home."

THE DAILY PUBLIC LEDGER

Published Daily Except Sunday, Fourth of July, Thanksgiving and Christmas by the Ledger Publishing Company, Mayville, Kentucky.

EDITOR AND MANAGER CLARENCE MATTHEWS

Local and Long Distance Telephone No. 40. Office—Public Ledger Building.

Entered at the Mayville, Kentucky, Postoffice as Second-class Mail Matter.

PUBLIC SALARIES

The common idea is that a congressman's salary is plenty big enough. Maybe it is—for the average congressman. Maybe \$7,500 a year is more than that average law-maker could earn in any other occupation. But a fact like the resignation of Congressman John J. Fitzgerald of New York tends to make thinking people wonder whether, after all, we're liberal enough with our congressional salaries.

Mr. Fitzgerald is chairman of the house appropriations committee. His position, always important, is at present one of the biggest jobs in Washington. The man holding that chairmanship has his hands on the control of many billions. He is one of the chief directors of our war program. It is generally accepted that Mr. Fitzgerald is one of the ablest men in the house, and unusually well qualified for this vital work.

Yet in the climax of our war preparations, with enormously large and complicated appropriation bills to whip into shape, Mr. Fitzgerald resigns from congress. He explains:

"In nearly 19 years of continuous service in the house, all of my time has been absorbed in the discharge of public affairs and there has been no opportunity to give any attention to my private affairs. The increasing requirements of a large family and inability to meet my growing obligations necessitate that, before it is too late, I devote myself to my profession to earn sufficient to educate my children properly, to provide them comforts which they should have had to make some provisions for their future." He will therefore resume the practice of law.

Dropping out of the harness at such a time may be regarded by many citizens as an indefensible shirking of duty, no matter how strong the provocation may be. But the question remains. This case is typical of many, in every branch of government, national, state and municipal. It is seldom that a really first-class man can be got into an important office, and seldom that he can be kept there when he is in. We usually blame capable men who prefer private prosperity to impecunious public service. But is the public doing its part?

THE THRIFT BANK

The government savings stamps have made a tremendous hit. Everywhere heavy sales are reported. The stamps are found to appeal to the very class they were intended for, the millions with modest incomes. They reach the people who cannot well afford to buy the Liberty Bonds, and so make the national thrift movement complete.

And the appeal is by no means confined to those in humble circumstances. Well-to-do families, and rich families as well, find the 25-cent thrift stamp a convenient means of saving fractional parts of dollars that otherwise would dribble away without any visible return.

Children of all classes of society take to the plan with enthusiasm. It provides an easy and inspiring way for them to save and invest their money. Every child possessing a \$4.12 savings certificate, worth \$5 in five years, feels like a bondholder, with a personal stake in the war. And the child is right.

Just now there is a tremendous demand for these stamps for Christmas presents. Indeed, they are said to be the most popular form of all Christmas gifts in the market.

After the holidays, it is expected that postmen will sell them as they make their rounds. That, as one thrift stamp director remarks, is "just like having the soundest bank in the world brought to your front door." There will be plenty of patronage for that bank.

When we went into the war we thought that it last we were to be no longer surfeited on "diplomatic victories." Lord knows we had a belly full of them before, with a new one brought out every time the Dutchmen sunk a boat. At the outbreak of war our "diplomatic victories" stopped for a while, and we began to prepare for the staging of some real victories through the agency of our boys in khaki. We had almost forgotten the term, and now, like the pale gray taste of the morning after, we are "arriving at happy diplomatic conclusions" with Japan. The "happy diplomatic conclusions" of today look very much to us like the "diplomatic victories" of a year ago. We hope (trust and pray that these pills won't be followed by the same gripe.—Durango Herald.

GOVERNMENT TO HELP

In Fighting Out Income Tax—Returns of Income For 1917 Must Be Made Between January 1 and March 1, 1918.

Lexington, Ky., December 14, 1917. You won't have to figure out your own income tax all by yourself hereafter. The government is going to send out men to help you. It will be up to you to hunt up these men, who will be sent into every county seat town, and some other towns besides, to meet the people. Postmasters, bankers and newspapers will be able to tell you when the government's income tax man will be around, and where to find him. He will answer your questions, swear you to the return, take your money, and remove the wrinkles from your brow. Returns of income for 1917 must be made between January 1 and March 1, 1918.

"The Government recognizes," Collector of Internal Revenue Hays said today, "that many persons experience a good deal of difficulty in filling out income tax forms. It recognizes too, that taxpayers resident at points where collectors' offices are not easily accessible find it hard to get proper instruction in the law. Next year, when every married person living with wife or husband and having a net income of \$2,000, and every unmarried person not the head of a family and having a net income of \$1,000 for the year 1917 must make return of income on the form prescribed, there will be hundreds in every community seeking light on the law, and help in executing their returns. My own and every other collection district in the nation will be divided into districts, with the county as the unit, and a government officer informed in the income tax assigned to each district. He will spend hardly less than a week in each county, and in some counties a longer time, very likely in the courthouse at the county-seat town. In cities where there are collectors' branch offices, he will be there, and in other cities possibly at the city hall. My office will in due time advise postmasters and bankers and send out notices to the newspapers stating when the officer will be in each county. It will be unnecessary for prospective taxpayers to ask my office for forms on which to make returns. The officer who visits their county will have them.

"It may be stated as a matter of general information that 'net income' is the remainder after subtracting expenses from gross income. Personal, family, or living expense is not expense in the meaning of the law, the exemption being allowed to cover such expenses.

"The new exemptions of \$1,000 and \$2,000 will add tens of thousands to the number of income taxpayers in this country.

CRYING FOR HELP

Lots of It in Mayville But Daily Growing Less.

The kidneys often cry for help. Not another organ in the whole body more delicately constructed; not one more important to health. The kidneys are the filter of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the frequent indications of kidney trouble.

It is often the kidney's cry for help. Heed it.

Read what Doan's Kidney Pills have done for overworked kidneys.

Read what Doan's have done for Mayville people.

Mrs. E. Sphar, E. Second and Walnut Sts., Mayville, says: "Whenever I have heard anyone complain of their kidneys, I have never seen Doan's Kidney Pills fail to help them. I have been greatly benefited by them myself. At times, my back has ached and I have suffered from lameness through the small of my back. When I have been in that way, I have used a box or so of Doan's Kidney Pills, which I get at Chandler's Drug Store. They have always quickly removed the trouble."

Mrs. Sphar is only one of many Mayville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Sphar had. this district, inasmuch as practically every farmer, merchant, tradesman, professional man and salary worker and a great many wage workers will be required to make return and pay tax.

"The law makes it the duty of the taxpayer to seek out the collector. Many people assume that if an income tax form is not sent, or a government officer does not call, they are relieved from making report. This is decidedly in error. It is the other way round. The taxpayer has to go to the government and if he doesn't within the time prescribed, he is a violator of the law, and the government will go to him with its penalties."

WHAT BREAD CRUMBS CAN DO

For school fairs or for candy sales the girls always wish to put their home-made candy into boxes. Often-times the empty candy boxes one has on hand are slightly finger-printed. Try rubbing the lid of the box with a quantity of art gum, and the result will be quite as good.

Bad Weather — BUT — GOOD TOBACCO PRICES!

The weather prevented the delivery of much Tobacco for the opening sale, but prices were up to expectations. We sold a small crop of 500 pounds for 'Comer and Petro that brought \$211.47, making an average of \$37.76 per hundred pounds. The eight baskets sold as follows:

FOOLS HEN BY ELECTRIC LIGHT

A writer in Farm and Fireside tells of a seventeen year old boy who is making good profits from hens. The youth says, in explaining how he makes his hens work overtime:

"Every afternoon at 4:30, when Ildy began to chant 'The Shades of Night are Falling Fast' and prepared to turn in, I put one over on her by lighting a couple of those 'daylight' style of gasoline lanterns. The scheme worked like a charm. The hens stayed right on the job till 8:30, when I turned out the lights. At 5:30 a. m. I lighted them again and back they came to the floor litter, scratching away for dear life. I kept the lanterns burning in the morning till 8 a. m. Some of my neighbors prophesied dire calamity—said my hens were bound to die, being forced to go contrary to nature like that; but so far I have not lost any to speak of, and I believe it's only a question of time before the use of artificial light, during the short winter days, to make hens lay will become a general practice." BIG PROFITS IN SHEEP FIBER FOR FUR

One of the latest industries introduced into the United States is that of breeding Karakul sheep, natives of Asia, for the production of fur. While the ultimate aim of the business is the sale of Karakul lamb skins for use in garment manufacturing, owing to the limited number of these sheep in the United States and the difficulties incurred in importing new ones, the sale of adult pure-breds and high-grade animals is at present the most profitable feature.

The Karakul may be said to represent a distinct type of sheep, but many persons have hesitated about calling them a breed.

In 1912 L. M. Crawford began the experiment of crossing Karakuls with Lincoln and other long-wool sheep on his 1,900-acre ranch, near Cottonwood Falls, Kansas. This ranch is now known as the Kansas Karakul Ranch and is one of the few in the United States to be devoted to this industry. As a result of crossing Karakuls with Lincoln the half-blood lambs were all black with the luster and curl typical of the pure Karakul.

BABY BEEF PAYS THIS MAN

H. H. Bailey of Valley County, Nebraska, raises Shorthorn calves, fattens them, and sells them as baby beef. He keeps a herd of about 40 cows, and has been very careful about replacing the culls with good helpers of his own raising. He now has a herd that is bred up to a very high standard, and it is from this herd that he raises his calves for baby beef. As a rule, Mr. Bailey finishes his calves at the age of fifteen or eighteen months. Such of his yearlings as give promise of meeting the requirements of the Christmas trade he points for that market, and for them he gets the customary premium paid for such cattle during the first half of December. Those that do not show up well, he markets earlier in the fall. Last year he sent his first shipment to Omaha the second week in November. It consisted of 16 head, of which 8 steers and 7 heifers sold together at \$10.25 a hundred pounds at an average weight of 295 pounds.—Farm and Fireside.

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. O. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended by medical books as being of benefit in all kinds of troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

BOLSHEVIKI CLAIM VICTORY

And Are Ready To Talk of Peace—Will Likely Quit Fight If Armistice Is Signed.

London, December 14—Leon Trotsky, the Bolshevik foreign minister, according to a Reuters dispatch from Petrograd, announces that if an armistice for the eastern front is signed at Brest-Litovsk, the Russian delegates are empowered to enter into peace negotiations.

Korniloff Defeated in Belgorod Fight

Petrograd, December 14—In the battle near Belgorod, according to a Bolshevik staff report, General Korniloff's Cossacks were defeated. They retreated to Vasileika.

In connection with the battle at Rostov, the evening newspapers report the Cossacks as victorious, the Bolsheviks having retreated across the Don river to Nakhichevan.

The Russian Situation

New York, December 14—Bolshevik forces apparently, have been successful in the first clashes with the counter-revolutionists and it is reported they have captured the towns of Tambovka and Knyaga.

General Kaledines is besieging Rostov-on-the-Don, the largest city in the Don province and heavy fighting has been in progress there since Sunday. Tambovka is near Belgorod, 350 miles south of Moscow, and near where the forces of General Korniloff, also a counter-revolutionist, are reported to have been engaged in a heavy battle with the Bolsheviks. One report said Korniloff had been defeated and wounded while another said he had been victorious.

Severe fighting has been going on in and around Rostov, which is only twenty-five miles southwest of Novocherkassk, the Don Cossack capital. Kaledines' troops besieged the city while Cossack forces within Rostov attacked the Bolsheviks.

The losses are reported to have been heavy on both sides. The Bolsheviks, reported to be commanded by Ensign Krylenko, the Bolshevik commander in chief, were aided by the transport Kolesika.

CHAMBER OF COMMERCE

Tells of Its Future Activities in Bulletin Issued Yesterday.

Speaking of its future activities the Chamber of Commerce Bulletin issued yesterday contained the following:

The improvement, for navigation purposes, of our Ohio River will be one of the most important activities which we are glad will demand some of our time.

We intend to make an extra effort to get the farmers together during this year in order that they may discuss matters of mutual benefit. We want them as organized citizens to suggest to us ways by which we can be of service to them and work with each other for all good things for Mason county. We want to help make our county a greater stock raising and agricultural community and encourage the dairying business also establish a stock sales market where Cincinnati and Chicago buyers may come and purchase fine stock.

A mutual agreement has been formed between the County Judge and Commissioners Elect whereby we will cooperate in an endeavor for Better Roads.

Several plans to advertise Maysville have been made and others under consideration. We believe that we must advertise our city's merits just as does the merchant, the merits of his goods.

Many unsightly places could be transformed into beauty spots by just a little extra effort. A city that assumes a pleasing sight, with its growth, is one in which we would all prefer to live.

We want to help this, our Commonwealth, one of the most useful and needed in the Union.

In conclusion we would state that as an organization we desire to place a few more bricks in that structure of Lasting Peace by helping our government in all her calls for War Service.

The first lot of blank questionnaires was mailed out this morning by the Mason County Exemption Board.

Mrs. Howard Key has returned from a visit to her parents at Augusta.

NAVAL PROBE NOW ORDERED BY CONGRESS

Washington, December 14—The Senate Inquisition into conduct of the war spread to the House of Representatives today when the House Naval Committee voted for a sweeping investigation of the navy. Hearings of the committee will commence immediately. The investigation, it was stated, will go into every phase of the naval situation.

Secretary Daniels and all active admirals right down the list will be called to testify.

A special investigation subcommittee of seven members was appointed as follows:

Oliver (Ala.), Connolly (Kas.), Venable (Mass.), Hensley (Mo.), Britten (Ill.), Hicks (N. Y.), Peters (Me.).

Congressmen said the probe was prompted not so much by suspicion of the conduct of affairs as through the rapidly growing determination throughout the country for a more open management of both army and navy.
